Since he disappeared during a storm, it was supposed that the ill-fated man went to the very edge of the small, rocky island on which the light-house stood, and was swept out by a wave. This supposition seemed the more likely as his boat was not found next day in its rocky niche. The place of light-house keeper had become vacant. It was necessary to fill this place at the earliest moment possible, since the light-house had no small significance for the local movement as well as for vessels going from New York to Panama. Mosquito Bay abounds in sandbars and banks. Among these navigation, even in the daytime, is difficult; but at night, especially with the fogs which are so frequent on those waters warmed by the sun of the tropics, it is nearly impossible.
