Jaico Publishing House, New Delhi, 2016. Soft cover. Book Condition: New. 21 cms. 235pp. True Cases of Children Who Have Lived Before, children from India, Sri Lanka, England, U. S. A. , South Africa, Israel, Brazil, Turkey and Lebanon who remember their past lives. Children from all over the world have been known to remember their past lives. Scientists ? most notably Professor Ian Stevenson, Director of the Division of Personality Studies at the Health Sciences Center at the University of Virginia ? report on how their stories are then followed up to verify that the children?s memories are indeed real. Especially convincing are the cases of children born with missing limbs. They are able to describe exactly where and when they lost these limbs in a past life. They also often recount who their parents and relatives were. When the children?s statements are subjected to scientific verification, they are invariably confirmed in every detail. It is evident that reincarnation is more than just a belief or a philosophy, having been categorically proven through the statements of children. The scientific evidence, as presented in this book, shows reincarnation to be the truth and all religions and philosophies will have to swiftly encompass these ideas into their existing concepts to maintain any credibility. The concept of reincarnation belongs to the future and this is only the beginning. Trutz Hardo is a well-known expert on reincarnation and regression therapy. He holds seminars in Europe, Australia, U. S. A. and India. He has appeared on several television programmes.
