DATA VISUALIZATION

Book Condition: New. Publisher/Verlag: Springer, Berlin | The State of the Art | Data visualization is currently a very active and vital area of research, teaching and development. The term unites the established field of scientific visualization and the more recent field of information visualization. The success of data visualization is due to the soundness of the basic idea behind it: the use of computer-generated images to gain insight and knowledge from data and its inherent patterns and relationships. A...
