By Sheila C. Murphy

Rutgers University Press. Paperback. Book Condition: new. BRAND NEW, How Television Invented New Media, Sheila C. Murphy, Now if I just remembered where I put that original TV play device--the universal remote control . . . Television is a global industry, a medium of representation, an architectural component of space, and a nearly universal frame of reference for viewers. Yet it is also an abstraction and an often misunderstood science whose critical influence on the development, history, and diffusion of new media has been both minimized and overlooked. "How Television Invented New Media" adjusts the picture of television culturally while providing a corrective history of new media studies itself. Personal computers, video game systems, even iPods and the Internet built upon and borrowed from television to become viable forms. The earliest personal computers, disguised as video games using TV sets as monitors, provided a case study for television's key role in the emergence of digital interactive devices. Sheila C. Murphy analyzes how specific technologies emerge and how representations, from South Park to Dr. Horrible's Sing-Along-Blog, mine the history of television just as they converge with new methods of the making and circulation of images. Past and failed attempts to link television to...
